

CprE 492 Weekly Report | DEC15-08 | Report #5 (9/21/2015)

Advisor: Hung Nguyen

Project Name: Manufacturing Software Support Reprogram

Client: Van Gorp Corporation (Evan Zepp)

Members and roles in group:

Austin Benson – Team Leader

Nick Cervantes – Team Communication Leaders

Sean Finn – Key concept Holder

Evan Kroeger – Team Webmaster

Edwin Martinez – Key Concept Holder

Matt Petron – Key concept Holder

Weekly Summary

This week we primarily continued development. We did continue our communication with Van Gorp to try and get the additional information we need, but have not received it all yet.

Meeting Notes

- Other things we need to work on
 - o Updating the design doc
 - Specifically, the risks section
 - o Begin work on the new presentation
 - o Begin work on the poster design

Pending Issues

We are still mainly focused on development. However, we may soon become blocked if we do not get the additional information from Van Gorp that we need. Also, we need to begin focusing more on the class requirements to ensure we have them finished with plenty of time in advance.

Plans for Next Week

Continue development, and start class requirements as well.

Individual Contributions (This Week)

Austin Benson – Continued work on the Excel parser for wing pulleys. Also, began a updating the Excel parser to handle Pulley objects.

Nick Cervantes – Continued work on Excel file integrity checking. Continued work on Unit testing. Compiled weekly report.

Sean Finn – Continued work on Wing Pulley design and logic. Started work on the part number parser.

Evan Kroeger – Continued work on the GUI update. Worked on the website.

Edwin Martinez – Continued work on CSV file export for our current output.

Matt Petron – Continued work on converting all Wing Pulley standards to the Excel sheet.
